- Disaster Recovery Services
- Flex-IP 24hr Maintenance, Management & Support

Flex-IP is an evolutionary, end-to-end, business communications service that allows organisations to migrate to a single, all-in-one communications platform for the entire business.

Multi-Service Delivery

Flex-IP goes beyond traditional communications services by integrating, managing and supporting the entire communications infrastructure on your behalf, freeing you to do what you do best – Growing your business.

All-in-One Business Communications

It's a complete service delivery package, including solution design, installation and commissioning through to ongoing maintenance, management and support. Quality comes as standard with ISO 9001:2000 accredited service processes, all backed up by industry leading SLA guarantees for complete service confidence.

Simple & Flexible Monthly Billing

The Flex-IP service is both simple to manage and easy to budget for. You are billed monthly for your Flex-IP communications services on a "per user" basis and the price you pay is fixed for the duration of your contract.

You can now plan and budget for your business communications with confidence and without the burden of high start-up costs or cash draining capital investment commitments.

Scalable & Cost Efficient

Flex-IP is the ideal solution for dynamic and adaptive businesses that are looking to enhance sales and business productivity, simplify service delivery and reduce ongoing management and support overheads.

Contact Cat 42 today to see how we can put you back in the driving seat of your business communications strategy.
